50+ organizations, lawmakers partner on behalf of nation’s children

Children’s Week 2023 kicks off Monday, June 12 with a conversation about current threats to public education and how to protect our nation’s students.

Events, which run through June 17, will feature interviews, briefings, and in-person meet-ups with federal and state lawmakers, members of the Administration, advocates, and academics on topics including what children and parents need and want, how to combat economic inequality, and the social and economic benefits of investing in children.

This annual event from First Focus on Children comes as American youth struggle with challenges including a mental health crisis, rising mortality rates, anti-child discrimination in their schools, sports and other programs, and general threats to their well-being. More than 50 organizations and multiple members of Congress have partnered with First Focus on Children to spotlight and propose solutions to these issues throughout Children’s Week 2023 and beyond.
